High-speed doors for consumer markets

Stricker - HIGH-SPEED DOORS for consumer markets

Tailored adaptation of our high-speed doors makes customer areas more attractive, with an underlying quality that keeps supermarket processes efficient.

Specially configured for retail concepts and store designs that appeal to the emotions

- Their flexibility allows you to add your own attractive curtain designs
- Contact-free access control systems with RFID technology help to prevent theft
- Self-repairing anti-crash system minimises follow-up costs
- Photoelectric barrier technology for optimum safety
- Electric emergency-opening function
- Short delivery times after technical clarification

Motif curtains for your own advertising message and branding...

...or for those of your partners

- Ideal for sales promotion
- For your all-year range or seasonal produce
- Quick changeover of curtains when you need to display a new message or design
- Fast payback of acquisition costs
- Costs can be passed on to advertisers

Key advantages of high-speed doors over swing doors for ideal use in supermarkets

Marketing and advertisement

- Suitable for advertising and marketing messages that contribute to the ambience of the store (motif curtains)
- More attractive to look at
- Possibility of additional revenue from the marketing to third parties of POS advertising space
- Attractive individual design assists sales promotions
- Easy seasonal changeover of curtain designs
- First-mover advantages for use in the UK

Key advantages of high-speed doors over swing doors for ideal use in supermarkets

Commercial arguments

- Smoother-flowing traffic, even when handling fully laden pump trucks
- Faster transfer of stock from warehouse to shelf
- An efficient barrier between storage and retail space (with no unauthorised persons in the warehouse)
- The barrier is cancelled in emergencies, including power cuts
- Contact-free access
- Fewer repairs mean lower follow-up costs
- Air seal helps prevent draughts
- Designed to save energy

Individually configurable curtain designs
